About MAI Doors

What We Do

Since 1981, MAI has been making doors of the finest quality Mahogany, Maple, Teak, White Oak, Red Oak, Poplar and Knotty Alder. Our signature collections are defined by the use of these beautiful woods and by the combining of exceptional design and construction with the elements of patterned and beveled glass, metal caming, forged iron, and unique, decorative hardware. We create beautiful entrances that will add a sense of warmth, elegance and hospitality to any home.

We have positioned ourselves as a major wholesaler / "retailer" in the door industry. Our innovative collection of wood doors is second to none. And, our prices are always the most competitive. We sell to individuals, contractors, builders, developers and resellers.

With over 90,000 square feet of warehouse and office space, and a showroom full of the 'unusual,' MAI Doors is able to offer one of the largest selections of wood doors anywhere.

What makes us uniquely different from our competitors is that we can custom build to any opening and any color within a timely fashion.

MISSION STATEMENT

MAI's mission is to provide quality, selection and value in elegant wood doors with timely attention to our customer's needs while providing dependable service and support in a knowledgeable and ethical manner.

Astragal Mortise Lock Features

- Used to securely lock the inactive door of double doors or active sidelite
- Mortised into the entire length of the inactive door edge and astragal
- 7/16" hardened steel rods extend 1" top and bottom to secure the door into the frame
- One easy-to-use lever to lock and unlock the inactive door centrally located at 42"
- Stainless steel faceplate with various finishes
- **Highly recommended on 8' 0" double door configurations!**

Top and Bottom 7/16" Rod & Guide

Easy to use lever

MULTI-POINT DOOR LOCKING SYSTEM

MAi
HARDWOOD DOORS

MAi
HARDWOOD DOORS

Multipoint Door Locking System

SAFETY, SECURITY, STRENGTH

MAI Doors provides you with the most advanced operating multi-point door lock system now available for exterior wood doors in the USA and all of North America.

The unparalleled **SECURY LOCKING SYSTEM**

- Automatically & independently engages at each latch with a unique, patented design.
- Has multipoint latches that extend to 3/4" (20 mm) and become deadbolts automatically when the door is closed.
- Locked by turning the thumb turn 90 degrees inside or with key outside; special babysitter function locks the complete system simply by rotating the thumb turn from the inside.
- Is constructed with Stainless Steel in critical areas for maximum corrosion resistance.

Leversets

Large Format Multi-Point Lever Sets with 17 1/2" escutcheon plate

Handlesets

Only Handleset

for our 3-point
locking system

- Solid forged brass
- US-cylinder with standard Schlage "C" keyway

Available
Finishes

Satin
Nickel

Dark
Bronze

Pewter

Black

Our new Multi-Point Lock hardware is the most secure multi-point locking system available on the market today. With a multi-point lock mechanism & multi-point lock handles (sold separately) you will have comfort & security knowing you purchased the best multi-point locking hardware system available to you.

The 3 point locking system is available for use on all exterior wood door sizes, door heights, and door swings. 3 point locking systems prevent warping for taller wood doors and ensures weather tightness

ACTIVE & VENTING SIDELITES

Active Sidelites

- Utilizes current door space
- Have up to 58" in doorway accessibility
- Easily operate the sidelite like a double door
- Adds convenience when extra width is needed
(ex: 36" door w/14" sidelite = 48" of access when open)

Craftsman Style Door with Active Sidelite

Venting Sidelites

- Sidelite opens like a window
- Virtually un-detectable from the outside
- Choose 2/3 or full-view sidelite functioning
- Secured with 3-Point Lock and Commercial Hinges
- High Quality Screens available

2/3 Venting Sidelites

Full-view Venting Sidelite

HARDWOOD DOORS

Dutch Doors

What is a dutch door? A door divided horizontally in such a fashion that the bottom half remains closed while the top half opens to provide air flow and security for children and pets. MAI's in-house workshop can make any of the solid wood interior or exterior doors into a dutch door (doors with central rails apply.) Choose a dutch door with or without shelf for a custom look.

DOOR FINISHING TECHNOLOGY

MAi
HARDWOOD DOORS

MAi
HARDWOOD DOORS

MAI Doors goes above & beyond by mixing the best technologies with the passion and expertise necessary to provide the best finish possible. We have the state-of-the-art finishing machines made in Germany by Venjacob and MB which give our customers the factory finish they deserve.

Our stain is the best in the industry made by ICA in Italy. Rather than using dyes and pigments which fade, we use organic pastes and minerals ground to the finest degree to penetrate deep into the grain of the wood.

The clear-coat we use is the finest Italian water-based acrylic, nano-tech exterior finish available on the market today. The advantages of our factory finishing with this superior top-coat include: excellent water resistance, impermeability, transparency, U.V. radiation filtration from sunlight, specifically designed through rigorous R&D for exterior applications.

CUSTOM ORDER DOORS

Sometimes finding the right door is harder than it seems, but you know what you want. We can create from scratch for you any style of door and glass; from sophisticated to simple! You create the door by size, thickness, panel design, side-lites, transoms and glass. Choose custom features like wrought iron, distressed wood & hand carvings as well. Anything is possible.

Send us your picture, sketch, drawing or catalog ad by email or fax. Within a few days, we will present you with the CAD drawing and the quote!
